## Together, We Built a New Playground!

The saying goes: "If you build it, they will come"- and they came by the hundreds to renovate the Bayshore Heights Park. The park underwent a complete revitalization on July 31st, which was the culmination of an eight week planning effort that included the City of Daly City, KaBOOM!, the Forest-

ers and the Mid-Peninsula Boys & Girls Club. Over 390 volunteers from both the community and collaborating agencies contributed to this day-long build. The Mid-Peninsula Boys & Girls Club would like to express our deepest appreciation to all those who helped transform Bayshore Heights Park.

## Sunrise Rotary Takes Club Members "Golfing"

The San Mateo Sunrise Rotary Club held their First Annual *Putt Your Heart Out Tournament* at Malibu Castle & Grand Prix in Redwood City on June 25<sup>th</sup>. The theme was "Children Are Our Future." MPBGC Board Member & former Board President Dr. Michael Wong,

a longtime Rotarian, spearheaded this event. With the goal of providing positive summer experiences for youth, the Sunrise Rotary Club sponsored 100 kids from the Mid-Peninsula Boys & Girls Club to a fun day of miniature golf, games and, of course, a great lunch.

## Herman Young Annual Fishing Expedition

One of our highly anticipated events during the summer programming months is the *Annual Deep Sea Fishing Expedition*. Now in its 13<sup>th</sup>-year, this annual expedition is the result of the hard work and generosity of Herman Young. Our members enjoyed a day of light tackle

fishing in both shallow and deep water along the San Mateo Coastline. Members also learned about oceanography, climatology, marine biology and marine ecology during their day-long adventure. Many thanks to our friend, Herman Young and those that support this event.

Herman Young Fishing Trip

## Summer Enrichment Highlights

Over 400 youth attend both our DeLue & San Mateo Clubhouses daily. Here are a few highlights:

Palace of Fine Arts

Coyote Point Museum & Marina

Cantor Arts Center at Stanford University
