Jigsaw Employees Participate in Volunteer Event

As a corporate friend of the Club, volunteers from *Jigsaw* joined us on Friday, May 21st for an afternoon of fun. Activities included Field Games, Trivia Game Shows, Cup-stacking and a Military Appreciation Month Thank You Card project. Closing the event, *Jigsaw* volunteers went head-to-head against

Club staff and kids on our obstacle course. Having worked-up an appetite, all kids were treated to a BBQ. This afternoon of fun and games is another example of how corporate volunteerism can build lasting relationships with our members. Our heartfelt thanks to *Jigsaw* employees for their participation.

Jigsaw volunteers join in the fun with Club Staff

Amici's Takes Us Out to the Ballgame

Amici's East Coast Pizzeria of San Mateo once again played host to a large group of youngsters from the Mid-Peninsula Boys & Girls Club. Treating over 100 kids to a recent Giants game, *Amici's* went all out and brought in pizzas for the entire group, so no one left the park hungry.

The Club has enjoyed a great relationship with *Amici's* over the passed decade. As a result, local kids who may never have an opportunity to watch a game in person, are treated every year to a wonderful day at San Francisco's glorious ballpark. Thanks *Amici's*—see you next year.

Our Members love Amici's hospitality

Art Goes Green with EnvironArt Program

This Spring session, members are learning how to create art using some different materials—recyclables. At both clubhouses, members are creating projects using materials they might otherwise discard, while also learning about sustainability in the process. Cardboard, rocks,

paper scraps, old cell phones, cds, and old soda cans become re-imagined mediums for our youths' creativity to be expressed. Our members' EnvironArt work is on display throughout our clubhouses and available online in our Virtual Art gallery: www.midpenbgcart.webs.com

"Green is Beautiful"

Spring Enrichment Highlights

Over 400 youth attend both our DeLue & San Mateo Clubhouses daily. Here are a few highlights:

Spectrum Girls Science Club conduct experiments during Family Science Night

Indoor Soccer is well underway

Life Technologies donated 21 bicycles to the Club
